[Week - 10](#)

1) Sustainable leaders look at immediate, short-term gains.

- ☐ A. True
- ☒ B. False

The correct answer is **B. False.**

Sustainable leaders explicitly look beyond immediate, short-term gains. Instead, they focus on the larger context and set strategies that meet the long-term triple bottom line of social, environmental, and financial performance. Therefore, the statement that they look at immediate, short-term gains is incorrect.

2) The need of the hour is to have leaders who ____.

- ☐ A. focus only on business profit
- ☐ B. focus only on building technical solutions
- ☒ C. take a holistic approach
- ☐ D. none of the given

The correct answer is **C. take a holistic approach.**

The complexities of the modern world require leaders who can see the interconnectedness between various issues rather than just relying on technical solutions. These leaders must act as change makers who adapt solutions through a win-win approach across different stakeholders. Thus, taking a holistic approach is essential to ensure today's solutions do not become tomorrow's problems.

Education for Sustainable Development

3) Which of the following is a part of the 3Ps of triple bottom line?

- ☒ A. Profit
- ☐ B. Passion
- ☐ C. Party
- ☐ D. Pivot

The correct answer is **A. Profit.**

The triple bottom line is a fundamental concept in sustainable leadership that focuses on evaluating performance beyond just traditional financial metrics. It is commonly referred to as the three P's, which stand for people, planet, and profit. Therefore, "Profit" is the correct choice among the given options.

4) Organizations need leaders who create value for ____.

- ☐ A. internal stakeholders
- ☐ B. external stakeholders
- ☐ C. oneself
- ☒ D. all stakeholders

The correct answer is **D. all stakeholders.**

Sustainable leaders are required to balance short-term and long-term priorities to create value for a diverse variety of stakeholders. This encompasses individuals and groups both inside and outside the business. Responding to the concerns of all these multiple stakeholders is a core responsibility of sustainable organizations.

Education for Sustainable Development

5) The sustainability mindset involves ____.

- ☐ A. transparency
- ☐ B. presencing
- ☐ C. integrity
- ☒ D. all of the given

The correct answer is **D. all of the given.**

A sustainability mindset requires a strong interior sense of purpose combined with a long-term orientation. Special competencies that characterize this mindset explicitly include transparency, presencing, and integrity. It also involves courage, open-mindedness, and enlightened self-interest to achieve the triple bottom line.

6) Finding ways to maintain one's own and others' energy is an unsustainable leadership practice.

- ☐ A. True
- ☒ B. False

The correct answer is **B. False.**

Finding ways to sustain one's own and others' energy, momentum, and belief in what is possible is actively identified as a core *sustainable* leadership practice. It helps leaders maintain resilience in the face of daunting challenges by developing communities of reflection and support. Therefore, classifying it as an unsustainable practice is false.

Education for Sustainable Development

7) Systems thinking is often highlighted by the ability to ____.

- ☐ A. zoom in
- ☐ B. zoom out
- ☒ C. zoom in and out
- ☐ D. none of the given

The correct answer is **C. zoom in and out.**

Systems thinking in sustainable leadership requires the intellectual flexibility to see the bigger picture as well as appreciate the intricate details. Leaders must be willing to "zoom in" to find the root cause of an issue and "zoom out" equally fast to regain a global perspective. This allows them to shift perspectives quickly between competing interests.

8) Practicing consciousness awareness includes ____.

- ☐ A. ignoring self with others
- ☐ B. forgetting about what has happened and moving on
- ☐ C. living in denial
- ☒ D. authentic interactions

The correct answer is **D. authentic interactions.**

Practicing conscious awareness means continually noticing oneself in relationship with others and the work being done. It fundamentally involves engaging in authentic interactions through both words and actions. It also encourages joint reflection rather than ignoring others or living in denial.

Education for Sustainable Development

9) Leadership _____ is the last challenge of leadership; of letting go, moving on, and planning for one's own obsolescence.

- ☒ A. succession
- ☐ B. regression
- ☐ C. formation
- ☐ D. integration

The correct answer is **A. succession.**

Leadership succession is recognized as the ultimate challenge for sustainable leaders. It involves the difficult process of letting go, moving on, and actively planning for one's own obsolescence. Properly managing this succession secures the organization's success over time and ensures a lasting legacy.

10) _____ leadership is also called missionary leadership and is different from quiet leadership.

- ☐ A. participative
- ☐ B. servant
- ☒ C. radical
- ☐ D. inspirational

The correct answer is **C. radical.**

Radical leadership is also known as "missionary" leadership and significantly contrasts with the self-effacing nature of quiet leadership. It involves acting like an activist or revolutionary, taking calculated risks, and challenging the status quo. These leaders act as crusaders for important causes and remain undeterred by the challenges of making an impact.

Education for Sustainable Development

Week 10 : 5: ESD & Sustainable education Sustainable education & global partnership

a) Educational policy & curriculum
