[Week - 12](#)

1) ____resources are those that exist in the absence of human intervention.

- ☐ A. Artificial
- ☒ B. Natural
- ☐ C. Fake
- ☐ D. Real

B. Natural

Explanation: Natural resources are entities that exist in the absence of human intervention. A natural resource can exist as a distinct entity (such as fresh water, air, or a fish), or it can exist in a form that requires processing, such as metal ores, rare-earth elements, petroleum, and most types of energy

2) The food sector accounts for around ____ percent of total greenhouse gas emissions.

- ☐ A. 3
- ☒ B. 22
- ☐ C. 100
- ☐ D. 90

B. 22

Explanation: The food sector accounts for around 22 percent of total greenhouse gas emissions. This high percentage is largely due to the conversion of forests into farmland

Education for Sustainable Development

3) Which of the following is not a solution for natural resource depletion?

- ☒ A. use less renewable energy
- ☐ B. promote sustainable fishing growth
- ☐ C. reduce food waste
- ☐ D. treat wastewater before discharging

A. use less renewable energy

Explanation: Using *less* renewable energy is not a solution; rather, one of the primary solutions to combat natural resource depletion is to use more renewable energy. Other valid solutions include making electricity use more efficient, promoting sustainable fishing and forest management, avoiding single-use plastics, driving less, using sustainable agriculture practices, reducing food waste, and treating wastewater.

4) In order to support reform on green fiscal policy, UN Environment has established the _____ in partnership with the International Monetary Fund.

- ☒ A. Green Fiscal Policy Network
- ☐ B. Blue Fiscal Policy Network
- ☐ C. Green Fishery Policy Network
- ☐ D. Green Fiscal Policy Natural

A. Green Fiscal Policy Network

Explanation: To support reforms on green fiscal policy, the UN Environment established the Green Fiscal Policy Network in partnership with the International Monetary Fund. This network is responsible for facilitating knowledge-sharing and dialogue on green fiscal policy reforms

Education for Sustainable Development

5) As responsible consumers, we should ask ourselves "___" before buying anything.

- ☐ A. do I really need it?
- ☐ B. how long will I use it?
- ☐ C. can I borrow it from someone I know?
- ☒ D. all of the given

D. all of the given

Explanation: Sustainable consumption requires making a conscious choice about products. Before making a purchase, responsible consumers should ask themselves questions such as "do I really need it", "how long will I use it", and "can I borrow it from someone I know" to ensure they are

6) A bulb thrown out after usage forms ___.

- ☐ A. wet waste
- ☐ B. valuable waste
- ☐ C. responsible waste
- ☒ D. e-waste

D. e-waste

Explanation: A bulb thrown out after usage is considered e-waste. E-waste management refers to all electronic and electrical equipment, explicitly including everyday items like refrigerators, mobile phones, computers, and light bulbs

Education for Sustainable Development

7) SDG _____ seeks to promote international trade, and help developing countries increase their exports to ensure a universal rules-based and equitable trading system that is fair, open and beneficial to all.

- ☒ A. 17
- ☐ B. 2
- ☐ C. 6
- ☐ D. 11

A. 17

Explanation: A key part of global partnerships and international cooperation is to help developing countries increase their exports to ensure a universal rules-based and equitable trading system that is fair, open and beneficial to all. This falls under Goal 17: Partnerships for the Goals, which is built on the essential need for collaboration across societal sectors and international cooperation

8) According to Gandhiji, wealth should be used for _____.

- ☒ A. the betterment of the humanity
- ☐ B. personal indulgence
- ☐ C. conflicts
- ☐ D. politics

A. the betterment of the humanity

Explanation: According to Gandhiji, the essence of commerce is that wealth generation should not be at the cost of the individual. Instead, the generated wealth should be used for the betterment of the humanity and not for personal indulgence. He believed that wealth should be in the hands of all, rather than concentrated in the hands of a few

Education for Sustainable Development

9) The _____ initiated and spearheaded by Gandhiji is the preeminent prototype of small and cottage industries. Strengthening village economy, and thus, reducing excessive urbanization can make human settlements safe, resilient and sustainable.

- ☒ A. Khadi Movement
- ☐ B. Salt March
- ☐ C. Cotton Movement
- ☐ D. Non-violent Protest

A. Khadi Movement

Explanation: The correct answer is the Khadi Movement. *(Please note: The specific details regarding the Khadi Movement being the preeminent prototype for small and cottage industries to strengthen the village economy are not present in the provided source documents. This explanation relies on the correct answers from our previous conversation and outside historical knowledge).* However, the sources do highlight Gandhiji's broader ideals of ethical living, value-based approaches, and non-violent actions being vital for sustainable development and combating environmental threats.

10) _____ is the ability of a system to absorb disturbances & retain its basic function and structure.

- ☒ A. resilience
- ☐ B. gratitude
- ☐ C. mindfulness
- ☐ D. sustainable consumption

A. resilience

Explanation: Resilience is defined as the ability of a system to absorb disturbances and retain its basic function and structure. It involves the degree to which a system can self-organize, adapt, and remain in the same state despite facing a disturbance

Education for Sustainable Development

Week 12 : Guest Lecture by International Faculty

1. _____resources are those that exist in the absence of human intervention. B. Natural
2. The food sector accounts for around _ percent of total greenhouse gas emissions. B. 22
3. Which of the following is not a solution for natural resource depletion? A. use less renewable energy
4. In order to support reform on green fiscal policy, the International Monetary Fund. A. Green Fiscal Policy Network
5. As responsible consumers, we should ask ourselves " " <i>before buying anything</i> . D. all of the given
6. A bulb thrown out after usage forms . D. e-waste
7. SDG seeks to promote international trade, and help developing based and equitable trading system that is fair, open and beneficial to all. A. 17
8. According to Gandhiji, wealth should be used for . A. the betterment of the humanity
9. The initiated and spearheaded by Gandhiji is the preeminent can make human settlements safe, resilient and sustainable. A. Khadi Movement
10. is the ability of a system to absorb disturbances & retain its basic function and structure. A. resilience
