1) Global citizenship is a belief that individuals are members of ____ networks.

- ☐ A. multiple
- ☐ B. diverse
- ☐ C. local and non-local
- ☒ D. all of the given

Correct Answer: D. all of the given

Global citizenship recognizes individuals belong to multiple, diverse networks spanning local communities and global connections. This multi-layered identity fosters interconnectedness across cultural, economic, and environmental systems for collaborative transnational problem-solving.

2) A global citizen ____.

- ☐ A. is not aware of the wider world
- ☐ B. is confused about their place in the world
- ☒ C. takes an active role in their community
- ☐ D. do not care much about the planet

Correct Answer: C. takes an active role in their community

Global citizens actively engage in local and global communities, addressing injustices and promoting sustainability through concrete actions. This distinguishes them from passive awareness, emphasizing responsibility at multiple interconnected levels.

Education for Sustainable Development

3) Global citizenship education is based on ____ domains of learning.

- ☒ A. three
- ☐ B. two
- ☐ C. four
- ☐ D. seven

Correct Answer: A. three

Global Citizenship Education (GCED) is based on three domains of learning: cognitive (knowledge and critical thinking), socio-emotional (values, attitudes, and social skills), and behavioural (conduct, performance, and engagement). UNESCO's GCED framework explicitly structures learning outcomes around these three interconnected domains to develop global competencies for sustainable development and peacebuilding.

4) ____ is UNESCO's first Category 1 education-related institute in the Asia-Pacific region.

- ☐ A. MGEIN
- ☐ B. MGIER
- ☒ C. MGIEP
- ☐ D. MGOEL

Correct Answer: C. MGIEP

MGIEP (Mahatma Gandhi Institute of Education for Peace and Sustainable Development) is UNESCO's first Category 1 education-related institute in the Asia-Pacific region, located in New Delhi, India. Established with Government of India support, it focuses on SDG 4.7 through research, capacity building, and policy work in peace and sustainability education. The institute leads intellectual discourse on global citizenship and transformative education in the region.

Education for Sustainable Development

5) SDG target 4.7 rearticulates a ____ agenda for education.

- ☐ A. regional
- ☐ B. behavioral
- ☐ C. political
- ☒ D. humanistic

Correct Answer: **D. humanistic**

SDG target 4.7 rearticulates a humanistic agenda for education by emphasizing education for sustainable development, human rights, gender equality, peace, non-violence, global citizenship, and cultural diversity. This transformative approach places human dignity, values, and ethical development at education's core, moving beyond technical skills to foster compassionate global citizens committed to sustainable futures.

6) SEL stands for_____.

- ☐ A. Sustainable education and learning
- ☐ B. Social and environmental learning
- ☒ C. Social and emotional learning
- ☐ D. Sustainable and economic learning

Correct Answer: **C. Social and emotional learning**

SEL stands for **Social and Emotional Learning**, an educational approach that develops competencies in self-awareness, self-management, social awareness, relationship skills, and responsible decision-making. UNESCO integrates SEL into ESD and GCED frameworks to foster emotional intelligence alongside sustainability knowledge, preparing students for personal well-being and global citizenship.

Education for Sustainable Development

7) Which of the following is a role taken by a teacher in education for sustainable development?

- ☐ A. facilitator
- ☐ B. guide
- ☐ C. role model
- ☒ D. all of the given

Correct Answer: D. all of the given

In ESD, teachers serve as facilitators (guiding inquiry), guides (scaffolding learning), and role models (demonstrating sustainable behaviors). UNESCO frameworks emphasize this multifaceted role to empower students as change agents. Teachers model values through practice while creating participatory learning environments for transformative sustainability education.

8) Target ___ calls for strengthening efforts to protect and safeguard the world's cultural and natural heritage.

- ☐ A. 9.5
- ☐ B. 1.5
- ☐ C. 2.3
- ☒ D. 11.4

Correct Answer: D. 11.4

SDG target 11.4 specifically calls for strengthening efforts to protect and safeguard the world's cultural and natural heritage. Under SDG 11 (Sustainable Cities and Communities), this target addresses heritage preservation through increased public spending, conservation programs, and sustainable tourism. It links cultural heritage to urban resilience, community identity, and intergenerational equity in ESD frameworks.

Education for Sustainable Development

9) The UNESCO International Centre for Technical and Vocational Education and Training enables ____ in member states.

- ☒ A. green TVET
- ☐ B. blue TVET
- ☐ C. orange TVET
- ☐ D. white TVET

Correct Answer: **A. green TVET**

UNESCO's International Centre for Technical and Vocational Education and Training (UNESCO-UNEVOC) enables **green TVET** in member states, focusing on sustainable skills development for green economies and environmental sectors. This aligns with SDG 4 and 13 priorities, training youth for renewable energy, climate adaptation, and sustainable resource management careers through global capacity-building programs.

10) Which of the following statements is **not** true?

- ☐ A. green jobs contribute to preserving environmental quality
- ☐ B. green jobs ensure workers' rights
- ☒ C. green jobs are only found in the agriculture sector
- ☐ D. green jobs must be accessible to all

Correct Answer: **C. green jobs are only found in the agriculture sector**

Green jobs span multiple sectors including renewable energy, construction, manufacturing, transportation, and services—not limited to agriculture. They preserve environmental quality (A), should ensure workers' rights as decent jobs (B), and must be accessible to promote inclusive green transitions (D). The multi-sector nature enables broad economic transformation toward sustainability.
