[Week - 04](#)

1) GESO stands for ____.

- ☐ A. Green Education for Sustainable Occupation
- ☐ B. Green Enhanced Sustainable Occupation
- ☒ C. Green Enhanced Skills Occupation
- ☐ D. None of the above

Correct Answer: C. Green Enhanced Skills Occupation

Explanation: GESO refers to existing occupations enhanced with green skills for sustainability. Traditional jobs like architects or construction workers add specialized knowledge in energy efficiency, waste reduction, and eco-friendly practices. This classification by O*NET distinguishes GESO from new green jobs (GNEO) and demand-driven roles (GIDO).

2) The classification of occupations into GIDO, GESO and GNEO is given by US National Center for ____ .

- ☐ A. G*NET
- ☐ B. A*NET
- ☐ C. I*NET
- ☒ D. O*NET

Correct Answer: D. O*NET

Explanation: The US National Center for O*NET Resource Center classifies occupations into GIDO (Green Increased Demand Occupations), GESO (Green Enhanced Skills Occupations), and GNEO (Green New & Emerging Occupations) as part of their green jobs taxonomy to track sustainability-related workforce transitions.

Education for Sustainable Development

3) The International Framework for Greening TVET consists of the following tiers, except ____.

- ☒ A. Breaking TVET institutions
- ☐ B. Transforming TVET institutions
- ☐ C. Formulating National Policies
- ☐ D. Forming International Alliance

Correct Answer: A. Breaking TVET institutions

Explanation: The International Framework for Greening TVET by UNESCO-UNEVOC consists of tiers like Transforming TVET institutions, Formulating National Policies, and Forming International Alliances. "Breaking TVET institutions" is not part of the framework, which focuses on whole-institution transformation through understanding, planning, implementing, and monitoring sustainability practices rather than dismantling institutions.

4) Energy, water and waste management comes under the ____ dimension of Greening TVET.

- ☐ A. Green research
- ☐ B. Green culture
- ☐ C. Green teaching
- ☒ D. Green campus

Correct Answer: D. Green campus

Explanation: Energy, water, and waste management fall under the Green Campus dimension of Greening TVET. This dimension focuses on sustainable resource management within TVET institutions, reducing carbon footprints through practical campus operations like energy efficiency, water conservation, and waste reduction practices.

Education for Sustainable Development

5) Industry-institute interaction is an indicator of ____.

- ☐ A. green house
- ☐ B. green teaching
- ☐ C. green campus
- ☒ D. green curriculum

Correct Answer: **D. green curriculum**

Explanation: Industry-institute interaction is an indicator of green curriculum in Greening TVET frameworks. This collaboration ensures curricula incorporate industry-relevant green skills, aligning education with sustainable job market needs through partnerships that update course content and training programs for green economy transitions.

6) Sustainable entrepreneurship includes ____.

- ☐ A. social entrepreneurship
- ☐ B. eco-preneurship
- ☐ C. intra-preneurship
- ☒ D. all of the given

Correct Answer: **D. all of the given**

Explanation: Sustainable entrepreneurship encompasses social entrepreneurship (social impact focus), eco-preneurship (environmental sustainability), and intra-preneurship (innovation within organizations). It integrates economic, social, and environmental dimensions to create businesses that balance profit with planetary and people priorities through the triple bottom line approach.

Education for Sustainable Development

7) ESD requires ____ learning methods.

- ☒ A. participatory
- ☐ B. passive
- ☐ C. rigid
- ☐ D. static

Correct Answer: **A. participatory**

Explanation: ESD requires participatory learning methods that actively engage students in collaborative problem-solving, critical thinking, and real-world sustainability projects. Unlike passive, rigid, or static approaches, participatory methods empower learners to co-create solutions, develop agency, and take transformative action for sustainable development goals.

8) Which of the following is a transversal competency?

- ☐ A. creativity
- ☐ B. empathy
- ☐ C. systems thinking
- ☒ D. all of the given

Correct Answer: **D. all of the given**

Explanation: Transversal competencies are cross-cutting skills applicable across contexts. Creativity enables innovative problem-solving, empathy supports collaboration and understanding diverse perspectives, and systems thinking connects complex sustainability challenges. UNESCO recognizes all three as essential transversal competencies for ESD and lifelong learning.

Education for Sustainable Development

9) _____ is the ability to create good relationships and adapt to different social situations.

- ☐ A. emotional fitness
- ☐ B. mental health
- ☒ C. social health
- ☐ D. physical health

Correct Answer: **C. social health**

Explanation: Social health is the ability to create good relationships and adapt to different social situations. It involves effective communication, empathy, building meaningful connections, and navigating social dynamics successfully across various contexts and communities.

10) Sustainable health is ____.

- ☐ A. a curative approach
- ☐ B. only about the body
- ☒ C. a balance of mind, body and spirit
- ☐ D. only about mental health

Correct Answer: **C. a balance of mind, body and spirit**

Explanation: Sustainable health takes a holistic approach integrating physical, mental, emotional, and spiritual well-being for long-term balance. Unlike curative or body-only focuses, it promotes harmony across all dimensions through lifestyle, relationships, and inner peace practices.

Education for Sustainable Development

Week 4 : 2: ESD & SDGs ESD for achieving SDG- 4.7

- c) Gender equality
- d) Promotion of peace & non-violence
- e) Global citizenship

1. GESO stands for ____.

Answer: C. Green Enhanced Skills Occupation

2. The classification of occupations into GIDO, GESO and GNEO is given by US National Center for ____ .

Answer: D. O*NET

3. The International Framework for Greening TVET consists of the following tiers, except ____.

Answer: A. Breaking TVET institutions

4. Energy, water and waste management comes under the ____ dimension of Greening TVET.

Answer: D. Green campus

5. Industry-institute interaction is an indicator of ____.

Answer: D. green curriculum

6. Sustainable entrepreneurship includes ____.

Answer: D. all of the given

7. ESD requires ____ learning methods.

Answer: A. participatory

8. Which of the following is a transversal competency?

Answer: D. all of the given

9. _____ is the ability to create good relationships and adapt to different social situations.

Answer: C. social health

10. Sustainable health is ____.

Answer: C. a balance of mind, body and spirit
