[Week - 05](#)

1) Siddha comes under the ____.

- ☐ A. public health sector
- ☐ B. voluntary health agencies
- ☒ C. indigenous system of medicine
- ☐ D. private health sector

Correct Answer: C. indigenous system of medicine

Siddha is one of India's traditional AYUSH systems, originating from Tamil Nadu, alongside Ayurveda, Unani, and Homeopathy—classified distinctly from public/private sectors or voluntary agencies.

2) Which of the following is not a problem of healthcare infrastructure in India?

- ☐ A. shortage of staff
- ☐ B. skewed favor to urban areas
- ☐ C. no proper regulatory mechanism
- ☒ D. standard procedures in all regions

Correct Answer: D. standard procedures in all regions

India's healthcare infrastructure faces staff shortages, urban bias in resource allocation, and weak regulatory oversight, but lacks uniform standard procedures across its diverse regions.

Education for Sustainable Development

3) Which of the following is a health system building block as suggested by WHO?

- ☐ A. Economic growth
- ☐ B. Access to public transport
- ☐ C. Politics
- ☒ D. Service delivery

Correct Answer: **D. Service delivery**

WHO defines six health system building blocks: service delivery, health workforce, information systems, medical products/vaccines/technologies, financing, and leadership/governance. Options A – C (economic growth, transport, politics) are external factors, not core blocks.

4) An ecologically sustainable approach broadens the definition of ____.

- ☐ A. objective
- ☐ B. outcome
- ☐ C. cost
- ☒ D. value

Correct Answer: **D. value**

An ecologically sustainable approach in healthcare broadens the definition of **value**, incorporating environmental impact, resource efficiency, and long-term planetary health alongside traditional clinical outcomes and costs—aligning with frameworks like WHO's sustainable health systems.

Education for Sustainable Development

5) A _____ is an environment in which data of medical interest can be stored and made easily available.

- ☐ A. health repository
- ☐ B. health bank
- ☐ C. health bag
- ☒ D. health grid

Correct Answer: D. health grid.

A health grid is defined in the source material as "an environment in which data of medical interest can be stored and made easily available to different actors in healthcare systems such as physicians, healthcare centers, patients and citizens"

6) The POSHAN Abhiyan in India aims to improve nutritional outcomes for _____.

- ☐ A. children
- ☐ B. lactating mothers
- ☐ C. pregnant women
- ☒ D. all of the given

Correct Answer: D. all of the given

POSHAN Abhiyaan targets nutritional improvement for children (0-6 years), pregnant women, and lactating mothers through Anganwadi services, technology, and community involvement to reduce stunting, wasting, and anemia.

Education for Sustainable Development

7) Sus-QI stands for _____.

- ☒ A. Sustainable quality improvement
- ☐ B. Sustainable quality improvisation
- ☐ C. Sustainable quantity improvement
- ☐ D. Sustainable quantity improvisation

Correct Answer: **A. Sustainable quality improvement**

Sus-QI stands for **Sustainability in Quality Improvement**, a healthcare framework that integrates environmental, social, and economic sustainability into traditional quality improvement processes to maximize patient outcomes while minimizing resource impacts.

8) Which of the following is not a stage of Sus-QI?

- ☐ A. set goals
- ☐ B. measure impacts
- ☐ C. design the improvement effort
- ☒ D. ignore the system

Correct Answer: **D. ignore the system**

Sus-QI has four stages: (1) set goals, (2) study the system, (3) design the improvement effort, and (4) measure impacts. "Ignore the system" contradicts the framework's systematic approach

Education for Sustainable Development

9) Food insecurity is measured on the ____.

- ☒ A. FIES
- ☐ B. FAIS
- ☐ C. FIET
- ☐ D. FAIR

Correct Answer: **A. FIES**

The Food Insecurity Experience Scale (FIES) is the globally recognized FAO tool measuring food insecurity through 8 experience-based questions assessing severity from moderate to severe levels over 12 months.

10) The UN lists ____ levels of food security for any given country.

- ☒ A. 5
- ☐ B. 4
- ☐ C. 3
- ☐ D. 2

Correct Answer: **A. 5**

The UN's IPC (Integrated Food Security Phase Classification) lists **5 levels** of acute food insecurity: Phase 1 (Minimal), Phase 2 (Stressed), Phase 3 (Crisis), Phase 4 (Emergency), and Phase 5 (Famine/Catastrophe).

Education for Sustainable Development

Week 5 : f) Leveraging cultural diversity for SDGs

3. ESD & Sustainability ESD for achieving SDG-4.4

a) Technical & vocational skills for employability

1. Siddha comes under the ____. C. indigenous system of medicine
2. Which of the following is not a problem of healthcare infrastructure in India? D. standard procedures in all regions
3. Which of the following is a health system building block as suggested by WHO? D. Service delivery
4. An ecologically sustainable approach broadens the definition of ____. D. value
5. A _____ is an environment in which data of medical interest can be stored and made easily available. D. health grid
6. The POSHAN Abhiyan in India aims to improve nutritional outcomes for _____. D. all of the given
7. Sus-QI stands for _____. A. Sustainable quality improvement
8. Which of the following is not a stage of Sus-QI? D. ignore the system
9. Food insecurity is measured on the ____. A. FIES
10. The UN lists ____ levels of food security for any given country. A. 5
